

CFR NETWORK STATEMENT - 2021

## **ANNEX 16.a** **PRINCIPLES REGULATING THE COORDINATION PROCEDURE**

**Validity:** 13.12.2020 – 11.12.2021

**Version:** 10.0 (*project*)

**Update:** 15.12.2019

COMPANIA NATIONALA DE CAI FERATE CFR SA

## Principles Regulating the Coordination Procedure

When, during the process of programming the infrastructure capacity applications, CFR is confronted with some conflicts between applications, it will try to ensure a better harmonization, by their coordination, proceeding as follows:

- CFR shall ensure the best correlation of these applications ;
- CFR shall propose to the applicants, in reasonable limits, infrastructure capacities that are different from the allocated capacities ;
- Consultations with the applicants involved are based on the free written or electronic communication of the following information within a reasonable time:
  - a) the train paths requested by all other applicants on the same routes;  
routes;
  - b) the train paths allocated on a preliminary basis to all other applicants on the same
  - c) alternative train paths proposed on the relevant routes;

This information is provided without disclosing the identity of other applicants, unless the concerned applicants have agreed to this disclosure.

The applicant may submit CFR a contestation regarding the infrastructure capacity allocation. CFR shall communicate the settlement modality of the contestation within 10 working days.
