

CFR NETWORK STATEMENT - 2023

**ANNEX 9.c** **MFFRAMEWORK MODEL RECOMMENDED FOR SERVICE OPERATORS FOR  
DESCRIPTION OF SERVICE INFRASTRUCTURES AND SERVICES PROVIDED**

**Validity:** 11.12.2022 – 09.12.2023

**Version:** 12.0.0

**Update:** 13.12.2021

COMPANIA NATIONALA DE CAI FERATE CFR SA

## Recommended template for posting on the websites of service infrastructure operators

### **Message for service operators and service providers**

Both Law no. 202/2016, which transposes Directive 2012/34, as well as the Implementing Regulation 2017/2177 require service operators and service providers connected to the CFR network and / or service providers in these facilities to provide information on access conditions and tariffs at their facilities and for the provision of services.

In accordance with Art. 5 (1) (a) of Regulation (EU) 2017/2177 this information must be included in the network reference document, through a link to a website (own website or common portal) where this information is provided free of charge.

In order to support service operators and service providers in the description of their installations and / or services, CFR SA has developed a model, presented below, which reflects all the conditions of the aforementioned implementing regulation. This template can be used by operators and service providers if they wish. This template is available in Romanian and English. The information must be published in two languages of the European Union.

CNCF CFR SA is not responsible for the information provided by the service infrastructure operators.

Regional: .....(se completează cu numele Regionalei CFR)

Station: .....(se completează cu numele Stației)

Service operator: .....(se completează cu numele Operatorului de Servicii)

### Service infrastructure in the railway station

No.	Title	General information	
<b>1. General information</b>			
1.1	Service Facility Operator	<i>Name of the service operator</i> <i>In the case of service infrastructures in which several service infrastructure operators operate, it shall be specified whether or not access requests must be submitted separately</i>	
1.2	Validity period and updating process		
<b>2. Services</b>			
2.1	Name of service no. 1	Description of services	<i>(synthetic description according to Annex II of the Law no. 202/2016)</i>

		Type	<i>(basic, additional or ancillary)</i>
2.2	Name of service no. 2	Description of services	<i>(synthetic description according to Annex II of the Law no. 202/2016)</i>
		Type	<i>(basic, additional or ancillary)</i>
2.n	Name of service no. n	Description of services	<i>(synthetic description according to Annex II of the Law no. 202/2016)</i>
		Type	<i>(basic, additional or ancillary)</i>
<b>3. Description of the service infrastructures</b>			
3.1	List of all installations	<b>No.</b>	<b>Name</b>
		1	
		2	
		n	
			<b>Services provided</b>
			<i>(din lista de la cap. 2)</i>
3.2	Installation no. 1	Name	<i>(conform pct 3.1)</i>
		Location	
		Opening hours	
		Technical characteristics	
		Planned changes in technical characteristics	
3.3	Installation no. 2	Name	<i>(conform pct 3.1)</i>
		Location	
		Opening hours	
		Technical characteristics	
		Planned changes in technical characteristics	
<b>4. Charges</b>			
4.1	Information on charges	<i>(reference to the document providing information on tariffs for access to service infrastructure and tariffs for each related railway service that is provided under these infrastructures)</i>	
4.2	Information on discounts	<i>(reference to the document providing information on the principles of the reduction schemes offered to railway operators, taking into account the confidentiality of commercially sensitive information)</i>	
<b>5. Access conditions</b>			
5.1	Legal requirements	<i>Specification (if applicable) of a model access contract / legal document, and of the general terms and conditions for ensuring access to the provision of service infrastructures of the necessary conditions (mention of the link for the holders)</i>	

5.2	Technical conditions	<i>Technical conditions to be observed for the use of service infrastructures (type and maximum length of rolling stock, gauge, maximum permissible tonnage)</i>
5.3	Self-supply of rail-related services	<i>Information on the possibility for railway undertakings to self-service within the service infrastructure and the conditions to be met</i>
5.4	IT systems	<i>Where relevant, information on the conditions of use of the service operator's computer systems, where railway operators must use such systems, and the rules on the protection of commercially sensitive data</i>
<b>6. Capacity allocation</b>		
6.1	Response to requests	<i>Information on the modalities / procedures for requesting access to service infrastructures and / or services provided within the infrastructures, including deadlines for submitting and processing applications  <i>Application form for access to service infrastructures and services provided within the infrastructures (web address where it can be found)</i></i>
6.2	Response to the request	<i>Mention of the deadlines within which the service infrastructure operator responds to requests for access / provision of services to service infrastructures  <i>A description of the coordination procedure and the priority criteria applied by the infrastructure operator</i></i>
6.3	Information on available and temporary capacity restrictions	<i>Information on changes (planned / unplanned) in the capacity of service infrastructures that may have a major impact / temporary restrictions on the operation of service infrastructures</i>
